

Surgical Light

XenaLux™

Advanced design ensures top performance and a noticeably brighter light beam.

Powered by a 300-watt Xenon source and with light delivery via multifiber cables, Burton's XenaLux OR headlamp system offers superior intensity as well as remarkable reliability and value. The headlamp's optical system has a full range of articulation with a variable spot range, removable joystick adjustment and a new and improved vertically adjustable linkage arm for added reach and greater maneuverability. Unique design and optics allow the XenaLux Illuminator to provide superior features.

burton®

Headlamp Features:

- Extremely bright light at working distance
- Variable spot with flawless circular beam
- Very light weight right angle headlamp
- Preferred for comfort
- Compact optical system
- Fully-adjustable, uniquely-designed linkage arm allows for vertical adjustment of the optical module
- Adapts to any Wolf port
- Attractive standard 3.5 bundle cables

Illuminator Features:

- Produces highest intensity white light of any 300-Watt Xenon source
- Quiet, cool venting system
- Rotary Turret for Wolf, Storz, Olympus, ACMI and Pillingconnectors
- Hours-in-use meter
- Optional mobile floor stand offers vertical adjustment on upright assembly; the illuminator's shelf includes a handle for easy positioning
